SAD, SORROWFUL TALE.

"A MAN WHO NEGLECTS HIS OWN BUSINESS I DON'T WANT."

"That Settles Your Man for Me. If He Has Been Waiting Around Here I Don't Want Him," Says Mr. Cleveland.

Civil Service--Washington.

WASHINGTON, July 18.--The following brief tale of woe is interesting to office-seekers, and from it they may easily draw a useful hint for themselves. A Senator and three representatives, seated some days ago in an effort to get the president to appoint a friend of theirs to an office. They were zealous, adroit and persistent, and they made a strong impression on the president's mind.

"I am really very much satisfied with what you all concur in saying of your friend," said he. "I have almost concluded that he is the man for the place. When I can't get to him in case I should want to see him?"

"Oh," said all four, "he is here in Washington; has been here since the 4th of March; you can't get at him."

"That is the president," "that settles your man for me. If he is here and has been waiting around here I don't want him. If he has any business at home he must have neglected it, and a man who neglects his business is not fit for the office," said the president.

"I don't want idlers in the public service. I'll look for some one else. I will not trust with the care of our country a man who has no time to attend to his business and their business and time to hang around. When I want a man I'll send for him."

Some of the president's visitors were lamenting the possibility of a cholera visitation the other day. Mr. Cleveland said:

"I would not mind if there were two or three cholera cases now in front of the White House. I guess they would scare off the visitors."

It is remembered here that when, during Mr. Lincoln's presidency, there was a case of smallpox in the White House, Mr. Lincoln said:

"All rig 't--now let the office seekers come--let them come free; I've got some time to give them."

The effort to evade the civil service law by the chief of the bureau of statistics, of which mention has been made was not the only effort to get around the law. Having made his claim of authority, the appointment of the five copyists without civil service examination and on a full presentation of the facts, he immediately asked Assistant Secretary Farquhar to restrain his action. Mr. Farquhar advised Mr. Higgins not to allow any appointment to be made until the question had been decided by the senator and the other members of the committee.

The president said he did not know what he could do in the committee, but if he could not make a full civil service examination, he would do his best to do so.

Mr. Farquhar advised him to go to the Bureau of Chemistry, Wiggins said he would call again to see the president about the matter. To a correspondent this man said:

"They do very frequently," answered the white man.

The president said he did not know what he could do in the committee, but if he could not make a full civil service examination, he would do his best to do so.

"No, no," he replied, "they intend to have him perform as a pianist."

"I did not know that insane people ever performed on stages," remarked the President.

"They do very frequently," answered the white man.

SATURDAY, JULY 18, 1885.

The veterans of 1812 have decided to hold no meeting this year. So says the Louisville Times.

The Adams County, Ohio Prohibitionists will hold a convention at West Union on the 30th day of July.

RICHMOND is having a very fierce contest over the local option law, which is to be voted on at the next election.

TOWELL, the Paducah murderer, has applied for a new trial, and says that he will never take to the penitentiary alive.

JEFFERS, THOMPSON & CO., jobbers of millinery, drygoods and cloaks, at Cincinnati have made an assignment. The liabilities are \$125,000 and assets \$75,000.

The Fourth Kentucky Confederate Cavalry propose to have a reunion at Liberty Station, Carroll County, August 27. All ex-Confederate and Federal soldiers are invited.

JUDGE JACKSON held a conference with Governor Knott and General Casleman, and it was determined not to send troops to Letcher County until the civil authorities prove inefficient.

A FAYETTE county farmer predicts that there will not be 20,000 bushels of wheat raised in that county this season. Much of the crop was so poor that it was plowed under in the spring.

SPEAKER CARLISLE in a recent talk with the President is said to have taken strong grounds against the Civil Service Commission. It is said also that he sides with Auditor Chenoweth in the Kellar case.

An agent of the Dayton Hedge Fence Company is organizing a joint stock company to put up fences in Bourbon County. A capital of \$50,000 will be raised, half of which will be subscribed by the Dayton Company.

Some idea of the progress of beer drinking in this country may be had when it is stated that we drink twenty-five hundred times more beer than we did in 1840. On the other hand we drink forty-two per cent less of spirits than we did in the above mentioned year.

The President, upon the recommendation of Hon. John G. Carlisle, has appointed Alex. Daveatz, United States Consul at Nantes, France. Mr. Daveatz was a member of the Kentucky Legislature representing the Covington district. His relatives are now living in France.

A SLIGHT brightening up of business has been noticed in New York. A letter from that city to the Philadelphia Ledger says: General trade is undoubtedly looking up a little. In some branches where listlessness was the rule for some months, there has been, within the few days past decided animation, with an appreciation of values that is not altogether the result of speculative manipulation; and as we approach the autumn it is believed that the now somewhat monotonous complaints as to dull times will be agreeably varied by a healthful activity. As regards the South, it is admitted that much depends upon the exception from yellow fever, and, as regards ourselves, exemption from the cholera—but we are now so far into summer that there is a strong hope that we shall escape both. Again, despite the prolonged croak about the shortage in winter wheat, the indications are that we shall have plenty of other grain to sell at fair prices; and when the railroads begin to bring it to the seaboard their unhappy stockholders may have occasion to anticipate, on some of the leading lines at least, a resumption of dividends. The list of business failures is daily diminishing, and those that are recorded from day to day, it will be observed, are comparatively trifling affairs.

When an applicant has been notified of my intention to recommend him for appointment to the position for which he has applied, after he has duly qualified himself, his fitness to fill the position will be determined by an examination at my office.

If a satisfactory examination is passed I will forward the application and endorsement to the Hon. Daniel Manning, Secretary of the Treasury, with a certificate of the rating, character and qualifications of the applicant and recommendation for his appointment.

When appointed a bond will be required to be executed with proper sureties. Upon the appointment of the collector, I will then assign the officer to duty with the least possible delay. Respectfully,

PEACOCK PARDONED.

The Legion of Honor Disbanded—Missed From Prison.

TRENTON, N. J., July 18.—The court of pardons and a parole to Dr. H. C. Peacock, once a prominent physician in Jersey City, who about eighteen months ago was sentenced to two years in the state prison for conspiracy to defraud the Legion of Honor, convened yesterday.

The organization has connected with it a life insurance department. Peacock was the medical examiner and in that capacity, aided and abetted by Dr. J. C. Harrington, a former friend of Peacock, organized the organization. The latter was also sentenced to a term in the state prison, which he is still serving. Peacock will be greatly missed by the inmates of the prison, who have been responding to calls for medical assistance at night and at such other times as the prison doctors were absent.

Recently on the occasion of the illness and death in the prison of ex-Auditor Palmer, of Newark, Peacock was the only doctor in attendance. His willingness to serve his unfortunate fellows, rendered him popular in the prison.

Alleged Miraculous Cure Made at the Shrine of St. Anne.

OTTAWA, July 18.—The pilgrims to the Shrine of Saint Anne de Beaupre have returned here. They report three cases of miraculous cures, including that of a lady of seventy years, who could only walk with crutches and who left her crutches at the shrine and walked away without requiring their aid.

The first case was that of a young man named Dolan, who, from injuries received from a fall about ten months ago, was unable to walk or sit down for even a few minutes at a time, his only position being a prostrate one. It is claimed he was completely cured.

The third case was that of a cripple who left his crutches at the shrine, although the cure in his case was not complete.

PALL MALL GAZETTE.

The Only Difference is that the "Child" is a Married Woman.

MONTRAL, July 18.—It was told at the clubs that a prominent society man going home late from a leading club to his residence, on the most fashionable street in the city, found his maid in his room. She proved to be a member of the same club as the husband, and he is himself a married man. The excuse was made by the wife that she was sick and had called for help.

The interloper was driven from the house, which attracted the attention of passing club men. It is whispered by the nearest friends of the injured clumpan that the latter will withhold his wife's acquaintance the first time he meets her in public. Every effort is being made to hush the matter.

THE EVENING BULLETIN

ROSEN & McCARTHY,
Publishers and Proprietors,
To Whom Address All Communications

SATURDAY, JULY 18, 1885.

THESE red-hot times,
Ought to a fever,
Take off his clothes
And live in the cellar?

See notice in the want column by Miss Estelle R. Paddock.

The colored people will have a picnic near Elizaville Station on the 25th instant.

The Episcopal churches of the Lexington district will be in convention at Harrodsburg on Monday.

MAJOR THOMAS H. HAYS is engineering the project of a street railway connecting Frankfort and South Frankfort.

The Kavanaugh camp meeting will begin August 6th on the grounds near Baird's Station, Oldham County.

NATHAN POWELL, who had been an elder in the Presbyterian church for sixty years, died, near Carlisle, this week.

H. C. HELPHINSTON, and two sons, charged with arson, had their examining trial at Flemingsburg and were acquitted.

YESTERDAY was the warmest day of the year. The highest point reached by the mercury was one hundred degrees in the shade.

THE St. Lawrence last Monday, carried one hundred and thirty-five hogsheads of tobacco to Cincinnati. The Bonanza the same day took in one hundred and five hogsheads.

Mrs. MARTHA TUCKER, wife of John Tucker, a farmer, residing near Manches- ter, Ohio, died on the 15th instant, of a disease resembling cholera. She was only a few hours.

MESSRS. MORRISON & SONS, of Mt. Olivet have sent to the BULLARIUS a specimen of the new wheat of Robertson County. It is clean, plump and of fine quality. The trouble is there is not much of it.

IS in the Circuit Court this morning the jury in the case of the Commonwealth against Amos Riggs, returned a verdict of guilty and fixed the penalty at three years confinement in the penitentiary.

THE Mason County Teachers' Institute will be held in this city, beginning July 13th. A number of distinguished teachers and friends of education from different sections of the country are expected to the present.

JOHN W. RIVERS, of Fleming County, has filed suit in the Circuit Court of Bath against the Chesapeake and Ohio Railroad Company, claiming \$20,000 damages for the death of his son, who was killed on that road last spring.

THE Flemingsburg Times-Democrat says: "The base for the Botts monument is now in position in our cemetery. The weight of the largest piece is eight tons, or sixteen thousand pounds; and John Cord hauled it up the cemetery hill with ten horses. The last car load of material has not yet arrived."

The Whisky Business.
Please do not confound any of the whisky bitters which topers take and drunkards delight in, with that altogether different article "Brown's Iron Bitters," for there is nothing in it to satisfy the cravings of his debased appetite. This great iron medicine gives strength and new life, not a mere unwholesome stimulus. Sheriff Pouder, of Washington County, Tenn., writes that after using two bottles of it he was cured of dyspepsia.

WILLIAM HOLLIDAY, son of Mr. Alex. Holliday, formerly of this city, was killed at Richmond, Ind., on the 14th instant, by jumping from a train. He was going to that place from Cincinnati to work at his trade, that of a bricklayer, and jumped from the train to meet some friends he recognized. The train was going very fast and the supposition is that when he made the leap he fell back and was killed by the truck of a car, as his death was caused by fracture at the base of the brain.

SCALPED WITH CLUBS.

THIRTY-FIVE POLICEMEN'S BATONS USED TO SUBDUER A STRIKER.

Michael Koebeck Literally Jellified by Pumping—Two Others Who Were in the Wreck—Doomed Men—Drilling for Another Outbreak—Notes.

CLEVELAND, O., July 18.—Michael Koebeck was the most fierce of the 1,500 strikers who made the charge on the police at the plate mill. He was armed with a knotted club, and with a yell of rage, as he bounded toward Policeman Manzella and felled him with a blow. The police leaped over Manzella's body and rained blows upon Koebeck's head until his scalp was almost torn off. Then it was that the thirty-five big police clubs were splintered. Koebeck is in a very precarious condition.

When Joseph Pollock and J. Molbeck, two of the strikers who had been bailed out and appeared with bandages among their friends, the strikers set up a howl of rage and vowed vengeance. President Cushing, who is president of the rolling mill, is equally incensed. The police are also shocked, the angry strikers say, and Elmer Rosenthal of the Plaindealer, who arrested one of the strikers in his official capacity as special policeman, received notification from the strikers that he is to be killed.

Those who maintained that the strike has been exaggerated by the newspaper changed their tune when positive evidence was adduced showing that the strikers have been quietly and secretly arming and ammunition in small quantities and drilling under cover of night in the peach orchard.

Police Sergt. Thompson ran upon a squad of the strikers going through their tactics two days ago, and the police who had been located near the rendezvous of the rioters furnished evidence with respect to their getting ammunition. Two railroads have arranged to furnish a car a month's notice for the transportation of troops from the city to Perryburg, six miles away. All is quiet, as far as can be learned, although the strikers allow no outsiders at most of their executive sessions, and little can be learned of their intentions.

Posting a Notice.

CLEVELAND, O., July 18.—The Cleveland Rolling Mill company have submitted the following to the police commissioners:

"GENTLEMEN—We have decided to post at our works, and in other parts of the city, notices of the employees of our company desiring to resume work through fear of being assaulted, it has been decided by the board of directors to keep the entire works closed until such time as the employees are willing to return peacefully to work in all their several departments. It is our desire to continue shipment of material now on hand, and for the peaceful performance of this we trust that you take the necessary steps to sample the men, the man who is employed in shipping and for the protection of our plant."

"W.M. CHISHOLM, President."

The Police in the Fairmount, ward drilled, and it is found that they are preparing for another raid. The wounded strikers are doing nicely, although one or two of them are still hovering between life and death. There was no further disturbance of any kind.

In Michigan.

BAT CITY, July 18.—All the works continue running. Bardsell & Barker's salt block has started at the same point and terms as the steel mill, and the day will be ready to start one saw in the mill, providing enough men are on hand. If not, they will remain closed for the next fifty days.

The militia made a parade and the streets were lined with people. The best feeling prevails, however, among the citizens and the soldiers. The McLean mill attempted to cut as much lumber in ten hours as formerly in eleven, but the contractor not being satisfied with the work turned out, said the mill must cut lumber according to agreement or stop cutting its logs.

In Wisconsin.

MILWAUKEE, July 18.—The Bay View steel plate mill, employing one hundred men, has started up. Superintendent Parkes, who has been in Pittsburgh in consultation with the steel iron workers, will return soon, and consultation will be had with the managers and workers, who will be held in session. All mill hands are likely to start. The president of the Amalgamated Association is expected to arrive in the city very soon.

HARSH LANGUAGE.

"You D—l Villain! Why Will You Not Fight? You Mean Skunk!"

Sr. Louis, July 18.—Samuel C. Club, president of the Wiggin Ferry company and of the Missouri Republican company, was arrested on a warrant sworn out by H. C. Creveling, who charged Club with threatening to kill him. Creveling says Club used the following language to him:

"You d—l villain, why will you not fight? You mean skunk, are you the nastiest scoundrel ever saw, and ought to be quashed! Why will you not fight? You become a man, you yaller dog! Will you come to my office and give me a chance to kill you, you nasty scoundrel!"

Mr. Club was taken before Justice O'Conor, who in this case will come up on trial on July 31. The trouble between Messrs. Club and Creveling arises from Mr. Club's management of the affairs of the Wiggin Ferry company, in which Mr. Creveling is a large stockholder. At the time that the two companies leased the Madison company's ferry, the Illinois & St. Louis railroad and the Venie & Carondelet belt railway, Mr. Creveling was a stockholder and president, claiming that the lease was invalid, and it is wholly in the interests of Mr. Club himself.

According to the statement of Mr. Creveling, Mr. Club purchased a large amount of the stock of the Illinois & St. Louis railroad company, which Mr. Creveling says is a bankrupt concern, and he then brought about the lease to the Wiggin company, with the purpose, according to Mr. Creveling, of getting the value of the Illinois & St. Louis stock to him. Mr. Club is one of the wealthiest men in the city.
